Name:	Ryan Adam	**Student Number:**	19ha2605581
Support Centre:	Ladysmith	**Module Name:**	Creative Project: Game Production
Due Date:	16 Oct	**Module Code:**	HCGDP1181

What is the milestone for this week?

Functional stat inheritance

Functional Room Cooldown timer

Have you achieved this milestone? Mark it with an X

YES X		NO	

List what you have achieved this week.

Stat inheritance is working

Timer is working

Changed a small error in Traitinheratince float was 0.1f when it should have been 0.5f.

If any, list any changes you have made to your initial proposal due to insufficient time or scope.

Due to other assignments, an accumulative week of power outage, and work commitments i only had like a week to do this. But all things considered i think it went pretty well.

I didn't have time to do the scale inheritance.
